

# Study to Measure the Impact of COVID-19 on Public Sector Employee Workforce Experience

CFI Group in partnership with Grant Thornton Public Sector LLC is conducting a research study among public sector employees aimed at collecting feedback regarding changes in their work life since the COVID-19 pandemic.

This survey will provide insight into:

- What **changes** employees are experiencing
- What **challenges** they are having
- The impact on employee **productivity**
- How the current work environment is impacting **communications** and interactions with co-workers and supervisors
- Employee views of the **response** by senior leadership/management
- How employees are **feeling** about the impact of the pandemic on their work life, both now and in the future
- Impact of agency response on **loyalty**
- Overall **satisfaction** with agency response to the COVID-19 pandemic
- **Open-ended feedback** that provides context to responses regarding specific pain points and best practices

We are offering all interested federal, state, and local agencies the opportunity to invite their employees to participate. All agencies who have 30 or more survey responses from their employees will be provided with a copy of the results.

If your agency is interested in participating simply distribute the link below to your employees.
